Section A6

Collaboration Statement (Not taking any chances): I, Tyler Smith, worked on this assignment by myself, using only the course materials provided.

Hi, Julia and/or Micah!

My name is Tyler Smith and I am a first-year physics student. I grew up and went to school in East Cobb, about thirty minutes north of here. I like to hang out with friends and play games (board, video, etc). I am excited for this class, as I have always been curious as to how certain programs work, and I am hoping that this class will help me understand.

Mystery Code Output:

The Calico Project, Version 2.4.1

Running 'C:\Calico\mysterycode(HW0).py'...

Hello Tyler, nice to meet you.

Glad to have you in CS 1301! Your secret code is: 235926
